# ABOUT DAVE

Heidi and I moved to Gresham in 2007, shortly after having our first child. We purchased a home in Gresham because of the natural beauty, lower-cost housing, and an easy MAX commute to downtown Portland

I have grown to deeply love our community. I really appreciate the commitment that Gresham leaders have shown to working together to solve problems, and our community willingness to roll up sleeves and make our hometown great. Gresham is a great place to raise a family and grow a business, and I want to continue to foster that. Gresham also has some very real challenges that we need to tackle head-on.

Over the years my career has progressed; I am a manager at a software company headquartered in Portland. In my career, I've had the good fortune to learn many skills and work with diverse people. I'm fortunate enough to have a great job, and a very supportive family, enabling me to step up to give back to our community through public service.
